Zoll AED Plus – Benefits

- Durable and Dependable (one of the toughest AED devices available, backed by a seven-year warranty).
- Easy for non-professionals to use with clear audio/visual support.
- Low Maintenance Cost (5 year battery life & 5 year AED pad life).

Zoll AED Plus – Rugged and Durable

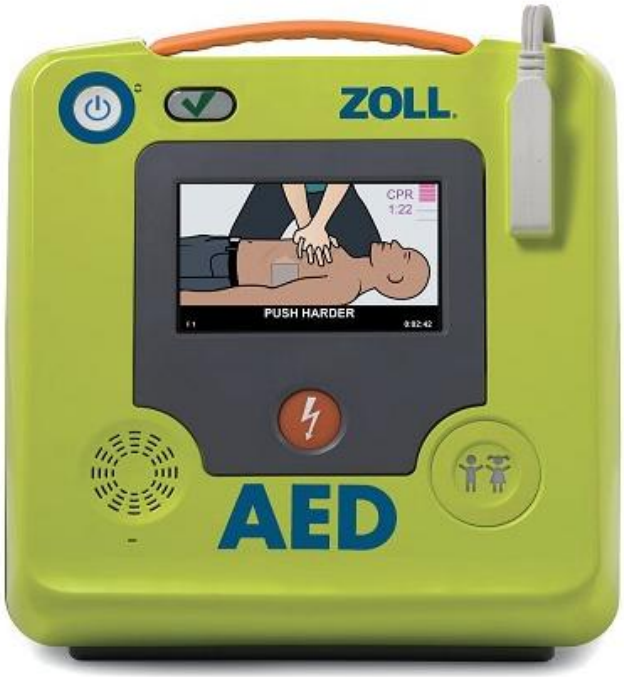

If you work with student athletes, law enforcement, or are involved with any other outdoor activities such as operating a golf course, you will want to make sure your AED is up for the challenge. You can plan on your AED seeing some abuse when being toted around outside, and you will want it to last. The Zoll AED Plus has one of the highest IP ratings when compared to similar AED devices available, which means you really can't find a better device for your use. Carrying a rating of IP55 means that it scores very well for dust and water protection. IP stands for ingress protection, and the first number represents its score for dust protection (5 out of a possible 6). The second number represents its protection from water (5 out of a possible 8). This Zoll Defibrillator can stand up to quite a bit of abuse when compared to the average portable AED device.

The Zoll AED Pro is designed for both basic life support and advanced life support professionals. Both of these Zoll defibrillators feature a feedback device known as "Real CPR Help®," which the emergency responders use to see and hear their cardiopulmonary resuscitation (CPR) efforts and help them to adjust their efforts accordingly. The Zoll AED Pro also features "See Thru CPR®," which allows the rescuer to see the patient's cardiac rhythm during resuscitation. This eliminates the need to stop the CPR to see if the defibrillation action was successful, thereby saving time and increasing the chances of the victim surviving the SCA.

Defibtech Lifeline

Discount Price with tax $1,349.00

Price listed on Internet: $1,509.00 +tax

Defibtech Lifeline (8 Year Warranty)

- Voice prompts - Calm, clear, and confident voice leads the user through the rescue 1 CHARGE-PAK (2 Year Shelf Life)
- Brightly lit progress lights provide clear visual guidance Reference Manual CD
- Easy to use with both traditional and hands-only CPR
- Physician's Prescription (Required by FDA)
- Manufactured to withstand dust and water ingress
- Standard Battery
- 8-year Warranty

Semiautomatic operation, meets AHA Guidelines 2010.

Defibtech Lifeline is designed to be used by the first person to respond to a sudden cardiac arrest (SCA) victim - easily, safely, and effectively.

Although not everyone can be saved from sudden cardiac arrest, studies show that early defibrillation can dramatically improve survival rates.

The EXPRESS is built with the same advanced technology trusted by more EMS and medical professionals than any other brand.

The Defibtech Lifeline features:

- Cost of ownership over 10 years is low
- Electrode pads comparably priced
- Long-life batteries
- Rescue information
- Data from the unit is automatically recorded
- Five year battery - 125 shocks or 8 hours of continuous use

It was built to be transportable for civilians, as well as EMS workers, fire fighters and police officers. Although it only weighs 4.2 pounds, it was tough enough to withstand the US Military "drop and shock" requirements. It's dust and water resistant.

Defibtech VIEW

Discount Price with tax $1,849.00

Price listed on Internet: $2,025.00 +tax

8 year warranty

The Defibtech Lifeline VIEW/ECG AED is revolutionizing ease-of-use in life-saving technology. Unlike other automated external defibrillators that simply tell you what to do, the Lifeline VIEW AED shows you with full-motion, color video. Backed by award-winning design, durability, and Defibtech's commitment to innovation, this Lifeline VIEW AED helps make life-saving clear and accessible for everyone, especially in a sudden cardiac arrest emergency.

Product Specifications

- **Large, full-color display**
- Step-by-step visual and voice instructions for performing CPR, rescue breaths, and external defibrillation
- Full text prompting to supplement detailed voice prompts
